SUBJECT INDEX

	Page
Accidents	134
recreation, technology, and system safety	447
ski injuries	459
snowmobile	481
in sports	454
Acoustic devices	567
Acuity, night vision	56
Adaptive hand controls	87
vigilance task	333
Administrative experimentation	238
Age, and muscular fatigue	323
Alcohol, and driving	19
and peripheral vision	174
Anthropometry, biomechanical model	585
posture definition	576
Architecture, human factors taxonomy	432
Arm articulation	585
Athletic and recreational systems	445
Attention, and alcohol	174
drugs, and vision	354
pilot, in navigation	223
and sleep loss	406
Attitudes, toward travel	46
Audition, foghorn design	567
Aviation, accidents	134
airborne illumination	181
area navigation	223
flight simulation	1
noise detection	373
passenger comfort and satisfaction	46
pilotage error in navigation	223
static and dynamic simulation	423
Baldness, and ceiling heat	415
Baseball batters	520
Biomechanical model	585
Boats, safety in	474
Brakes, car	87
Ceiling temperature	415
Children, sports participation	558
Circadian rhythm, and sleep loss	406
Clothing, and comfort envelope	314
Clutter, display	63, 93
Coach-athlete interaction	528
Codes, visual	308
shape and color	308
Coincident image range finding	508
Color coding	308
Comfort envelope	314
Computers, errors in programming	253
programming	70
program debugging	258
medical diagnosis systems	229
Comfort, travel	46
Controls, dynamic vehicle steering	29
foot *vs.* hand	87
hand, for brakes	87
rate *vs.* acceleration	278
sensitivity	278
use, during driving	19
Debugging programs	258
Decision-aiding systems	229
Decisionmaking, baseball batters	520
multiple decision opportunities	384
Density, display stimulus	65
display and visual noise	93
Design, console and data recording	154
digital telecommunications	146
and field testing	199
foghorn	567
human factors information taxonomy	432
liability	447
of power consumer vehicles	474
sampled imagery displays	286
ski release bindings	459
snowmobile	481
TV image quality	300
Detection, in adaptive vigilance	333
multiple display fields	93
of relative motion	161
slow changes in system dynamics	278
sonar and display format	368
target	308
target, input pacing	384
targets at night	181
visual codes	308
Diagnosis, medical	229
Digital encoding	139, 146
telecommunications	146
TV system picture quality	139, 146
Discrimination, vehicle steering	29
Display, aiding	93
B-scan and PPI	368
distance from, and vigilance	65
format and sonar detection	368
instructor stations	1
multiple fields	93
sampled imagery	286
turn signals	37
TV image quality	300
TV picture quality	139, 146
and vibration	186
Distance estimation	508
Distance, viewing	65
Diving, scuba	395
Driving research	
accidents	134
alcohol, and driving	19
alcohol, and peripheral vision	174
brake reaction time	87
detection of relative motion	161
detection of steering sensitivity	29

	Page
model for curve driving	129
power consumer vehicles	474
snowmobile design	481
turn signals	37
Drugs, and vision	354
Ecology, and snowmobiles	481
Electromyography	323
Environment, comfort envelope	314
Error, human in field testing	215
Evaluation, field testing	199
field testing and experimentation	238
medical systems	229
power consumer vehicles	474
Experimentation, computer programming	70
Facemasks, scuba	395
Farm equipment, safety in	474
Fatigue, muscular	323
Field testing, medical systems	229
reduction of human errors in	215
Special Issue	199
strategy	238
vs. laboratory experiments	203
Foghorn design	567
Foot controls	87
Garden vehicles	474
Golf carts, safety in	474
Health systems, field testing	229
Heat, comfort envelope	314
Heating, radiant	415
HPR (human performance reliability)	117
Human factors information technology	432
Humidity, comfort envelope	314
Information taxonomy	432
Injury, ski	459
in sports	454
in snowmobiles	481
Instructor station design	1
Jitter, display	93
Knowledge of results, in motor skills	503
in vigilance	333
Lawnmowers, safety in	474
Leisure, congruence model	545
Liability, in power consumer vehicles	474
product	447
Lighting, airborne system	181
Link analysis	154
Literature reviews	
athlete-coach interaction	528
drugs and vision	354
field testing	203
sampled imagery displays	286
vigilance	339
whole-body vibration	78
Lythgoe's effect	134
Masks, scuba	395
MCE (modal comfort envelope)	314
Measurement, control-use behavior	19
electromyography	323
flight simulation	1
pilotage error	223
stereo tape recorder	154
travel comfort and satisfaction	46
TV image quality	300
Medical systems	229
Methodology, administrative experimentation	238
computer programming experiments	70
digital telecommunications	146
driving research	129
drug studies	354
evaluation of power consumer vehicles	474
field testing	199
field testing *vs.* laboratory	203
human factors information taxonomy	432
human reliability	117
posture definition	576
risk factors in sport	454
simulation	181
snowmobile design	481
study of muscular fatigue	323
study of whole-body vibration	78
Models: See Theory	
Monitoring: See Vigilance	
Motion prediction, tennis ball	495
Motor performance, systems theory	514
Muscular fatigue	323
Music, foghorn design	567
Navigation aids, foghorns	567
pilot area navigation	223
Night vision, lighting system	181
thresholds	56
Noise, from snowmobiles	481
detection, signal detectability theory	373
visual, in digital TV	146
visual display	93
Observational data recording	154
Optimization, biomechanical model	585
Play, congruence model	545
Posture, definition	576
Posturegram	576
Power consumer vehicles	474
Power law	78
Preference, foghorn	567
Product liability	447
recreational and powered garden vehicles	474
Programming, computer	70
program debugging	258
syntactic error	253
Psychophysical methods	78

	Page
Radiation, thermal	415
Range finding devices	508
Recreational and Athletic Systems: Special Issue	445
Recreation, congruence model	545
participation	558
and power garden vehicles	474
technology and safety	447
Reliability, human	117
errors in programming	253
in field testing	215
pilotage error	223
Risk, in sports	454
taking in play, recreation and leisure	545
Safety, in recreational vehicles	474
recreation and technology	447
ski injuries	459
in snowmobile design	481
Sampled imagery displays	286
Satisfaction, in travel	46
Scuba facemasks	395
Self pacing, and decisionmaking	384
Sensitivity, automobile steering	29
Sex, and comfort envelope	314
and ski injuries	459
Shaping behavior, in sports	558
Signal detectability theory	373
baseball batters	520
Simulation, biomechanical model	585
data recording	154
instructor station design	1
laboratory and flight	181
left-turn signals	37
pilotage navigation errors	223
sonar display systems	368
static *vs.* dynamic	423
Ski injuries	459
Sleep deprivation, continuous 48-hour work	406
and driving	19
Snowmobiles, design and utilization	481
safety in	474
Sonar display format	368
Special Issues	
Athletic and Recreational Systems	445
Field Testing	199
Sports, athlete-coach interaction	528
baseball batters	520
congruence model of play	545
distance estimation in	508
participation	558
risk factors	454
ski injuries	459
snowmobile design	481
tennis	495
theory of mile runner	514
Stadiametric ranging	508
Steering sensitivity, vehicle	29
Stereo tape recorder	154
Stressors, alcohol and vision	174
alcohol, sleep deprivation and driving	19
binocular disparity	134
musuclar fatigue	323
overhead thermal radiation	415
sleep deprivation	19, 406
thermal comfort	314
vibration	78
vibration and displays	186
visual noise	93
Systems theory	514
Tape recorder, stereo	154
Task analysis, recording technique	154
human reliability	117
Task interpretation	70
Taxonomy, human factors information	432
Television, image quality	300
picture quality	139, 146
sampled imagery displays	286
Temperature, thermal radiation	415
Tennis, prediction of motion	495
Testing, field and data recording	154
Field, Special Issue	199
night vision	56
Theory, athlete-coach interaction	528
automobile driving	129
biomechanical model	585
congruence model of play	545
comfort envelope	314
human reliability	117
passenger comfort and satisfaction	46
power law, vibration response	78
recreation, technology, and safety	447
sampled imagery displays	286
signal detectability	373
sport participation	558
systems, and motor performance	514
vigilance	339
Thermal comfort	314
radiation	415
Tracking, detecting system changes	278
spurious angular accelerations in	423
and whole-body vibration	186
Training, distance estimation	508
instructor station design	1
motor skills	503
prediction of tennis ball motion	495
simulation data recording	154
and ski injuries	459
Tunnel vision, and alcohol	174
Turn signals, car	37
Underwater research, scuba facemasks	395
User requirements	432
Vibration, and displays	186
literature review	78
Viewing distance	65
Vigilance, adaptive task	333
literature review	339

	Page
and sleep loss	406
and time of watch	339
viewing situation	65
Vision, detection of relative motion	161
digital telecommunications	146
digital TV displays	139, 146
drug effects	354
Lythgoe's effect	134
night vision testing	56
noise, and digital TV	146
prediction of tennis ball motion	495
visual code	308
visual noise	93
with scuba facemasks	395
Visual interference	93
Watchkeeping: See Vigilance	
Workload, pilot	223
